

THE PROCESS

A SMOOTH PROCESS IN 7 STEPS

Dale's process is built with 3 simple things in mind:
ON TIME. ON BUDGET. PROVIDING A GREAT EXPERIENCE.

★ **Taking the first step: During the initial consultation that takes place at your home, we will:**

MEET AND GREET: Introduction to Dale's Remodeling followed by a tour of your home to get a feel for how you are currently using your space and discover your sense of style

- Review your goals, wants, needs and barriers
- Initial design concept - exchange of idea's and solutions
- Discuss project timelines and budgets
- Determine if Dale's Remodeling is a proper fit

DESIGN PROCESS:

- Create a space and design a plan
- Preliminary sketches
- Help you picture your newly remodeled space
- Share idea's on how to meet objectives and address your goals and needs
- With your input, we will revise the plans to create working drawings
- Final plans approved and signed off by client.

(depending on scope of work and drawings, this may or may not require a deposit)

SCOPE AND AGREEMENT:

- Finalizing scope of work and agree on pricing
- In-office appointment to explain options, answer questions, and make revisions as needed
- Price based on allowances is presented
- Agreement signing

SELECTIONS:

- Thousands of options! We will help make it simple
- Assisting you with finding the best product selections within your budget
- Suggest products in our showroom allowing you to see, touch and feel your project first hand

- Visit local dealers offering product knowledge support from the top local selections dealers
- Filling out "Finish Schedule" once all selections have been made

In-office appointment to review Finish Schedule and adjust pricing due to selection overage

BEGINNING WALK-THRU:

- On-site Meeting to review project prior to start date
- Consultant/Specialist will introduce Project Manager & Lead Carpenter
- Job is thoroughly reviewed with Lead Carpenter/on site Project Coordinator
- We will coordinate product delivery and assure your products are treated with care

Share best practices to live through a remodel. We understand how disruptive it can be, even to veterans. We vow to listen, support, provide idea's and be respectful throughout the process

CONSTRUCTION:

- Building permits obtained if needed
- Management and coordination of trade contractors and independent craftsmen
- We will review the timeline and schedule of your project
- Weekly meetings will be held between you and your Lead Carpenter
- Completion of work

FINAL WALK-THRU:

- Review completion of work
- Review punch list of work yet to be completed
- Wrap up project, answer questions, request feedback
- Collect final payment, if needed
- Photograph completed project
